<b>4A</b>	local procedure	SUPPORT TEAM ACTION IN EVENT OF CALL-OUT

As soon as the duty support team member is aware the Lifeboat has been called into service, they should;

- Announce that members of the public should leave the Boathouse.
- Make sure that the door is fully open.
- Clear and stow the safety barriers, signs and any other items that could cause obstruction to the rig leaving the Boathouse.
- Turn on Orange Strobe.
- Leave the arriving crew to do their job, including traffic management, and stay well clear of the boat and tractor. In the unlikely event that the crew need assistance they will ask.
